

MOSS CREATIONS

**Moss, the carefree
green solution for
any interior**

INTRODUCTION

The versatile solution

Moss is a beautiful natural product and a true eye-catcher in any interior. Be amazed by the many ways you can apply moss, such as various moss artworks, custom-made moss panels, and moss walls. There is also the option to have your logo, brand, or quote made from moss.

The moss is largely sourced from Southern Europe, Scandinavia, and the Netherlands, where it is grown in an environmentally friendly manner. The moss is preserved through mummification, where the moisture in the moss is replaced by a biodegradable preservative fluid. This ensures a longer lifespan (up to 15 years) for the moss. UV protection helps to slow down discoloration, although some fading over time cannot be entirely prevented.

The moss can be applied anywhere in your interior, even in places without natural light. For optimal preservation, the humidity in the room should be between 35-70%, and the temperature should not drop below 10°C.

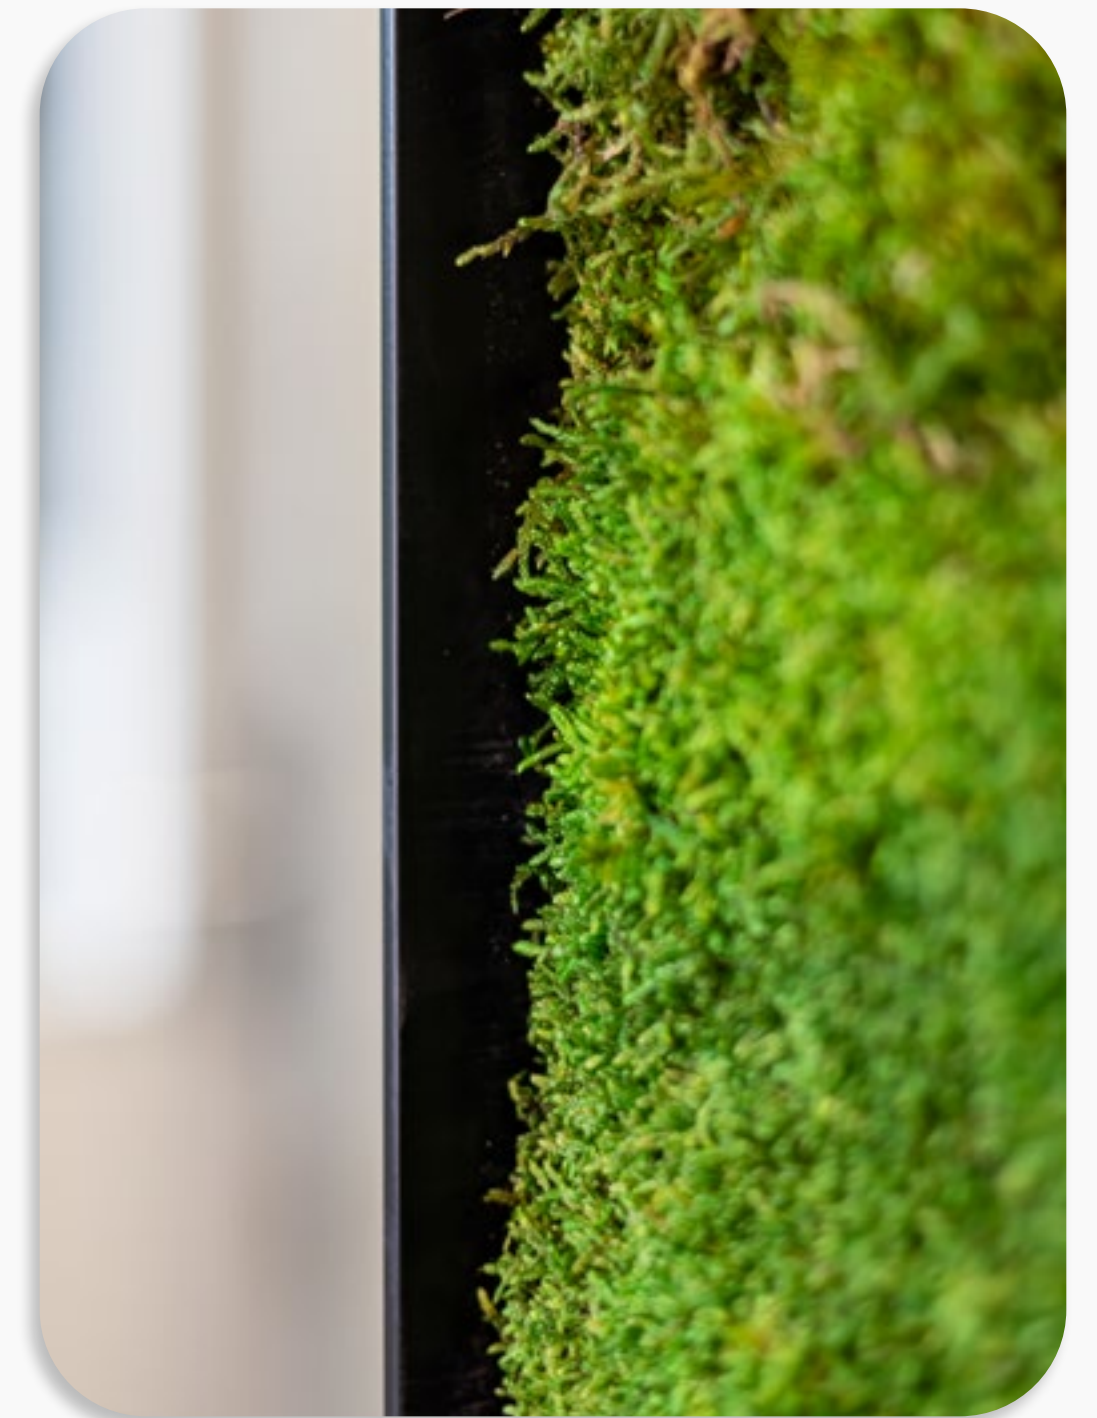

- ✓ Low maintenance
- ✓ Plant-based coloring
- ✓ Acoustic benefits
- ✓ Pest-free
- ✓ Fire retardant

QUALITY FIRST

DIFFERENT TYPES OF MOSS

All types of mos

We offer eight different types of moss. Since each type of moss has a unique appearance, we highlight the specific characteristics of each one next to it.

Did u know?

We can create fifty different combinations of moss for you, fully customized. This is what we call the moss mix.

- ✓ All combinations possible
- ✓ Tailored advice
- ✓ With fire certification

Hair moss

This moss has a hair-like structure. It contains various shades of green, creating a playful effect.

Fern moss

This moss has a fern-like structure. It is fluffy and feels soft to the touch. It has a lighter green color, making it ideal for adding accents between other types of moss.

Cushion moss

This moss consists of spherical pieces and has a deep green color. When applied, it creates depth. The moss fibers are short.

Long moss

This high-pile moss adds depth and also creates a playful effect. It has long moss fibers, giving it a soft feel.

Our bestsellers

1. 100% Flat moss
2. 75% Flat mos - 25% Cushion moss
3. 100% Reindeer moss

Rock moss

Deze mossoort groeit op rotsen en keien, waardoor het een robuuste uitstraling heeft. Het mos is dun en heeft korte haren.

Star moss

This moss is fluffy and has a fuzzy texture. It is light in color, making it ideal for use as a detail or accent color.

Reindeer moss

Reindeer moss is a shrub-like type of moss with hollow, pithless branches. The product has a coral-like appearance and is available in over 30 colors!

Flat moss

The most popular moss product. Due to its natural appearance and uniform characteristics, it is very suitable for placing behind logos and letters. Medium-length moss fibers create a calm look.

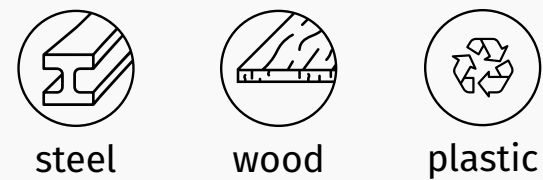

Urban moss

The most creative moss combination in our assortment. Urban moss is a mix of different types of moss, artificial plants, and other natural decorative elements such as branches.

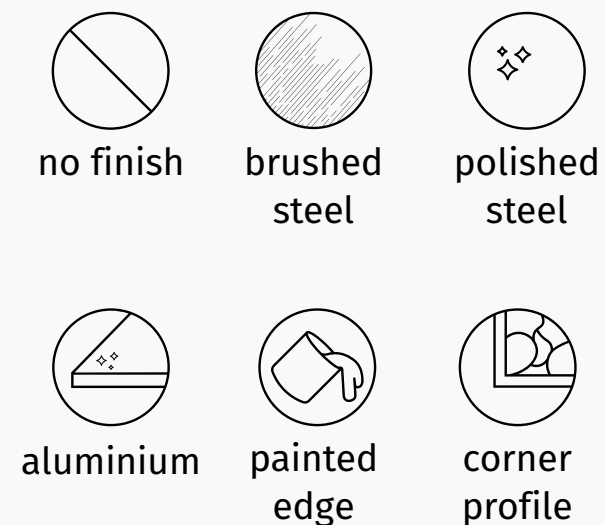

Different moss products

In addition to the various types of moss, there are also many different products that moss can be applied to. Moss can be attached to almost any surface using the special adhesive we use. Moss products are always custom-made, ensuring that the product always fits your specific situation.

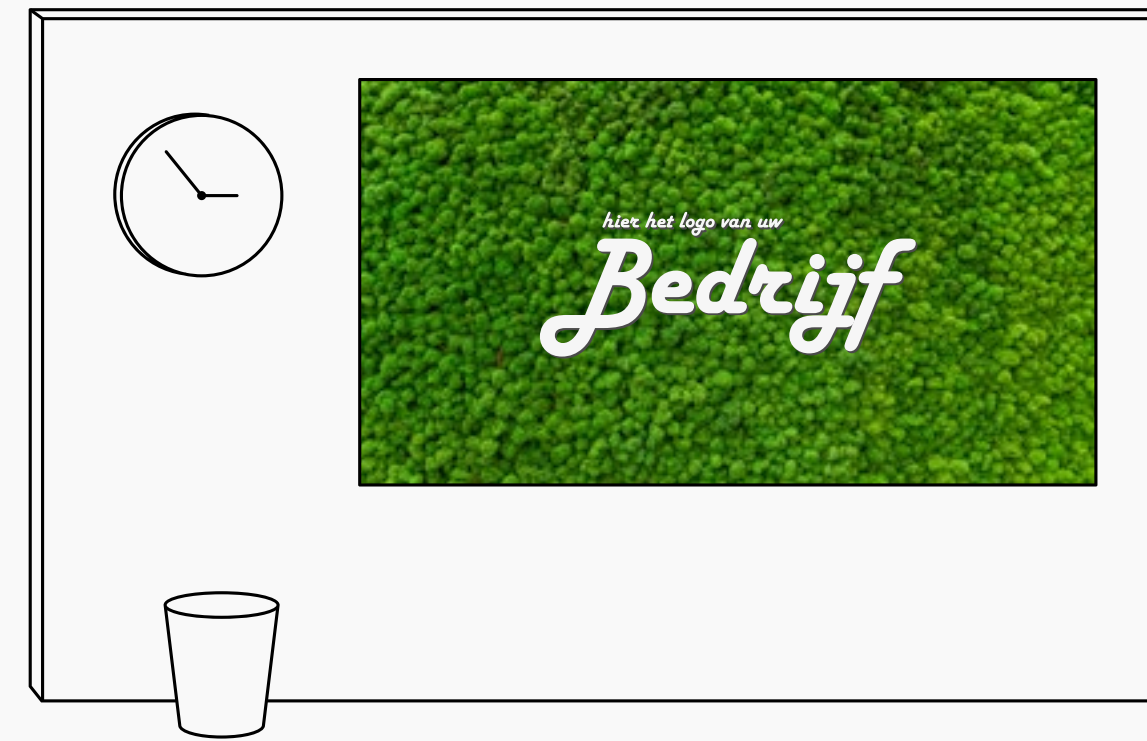

Materials

Finishes

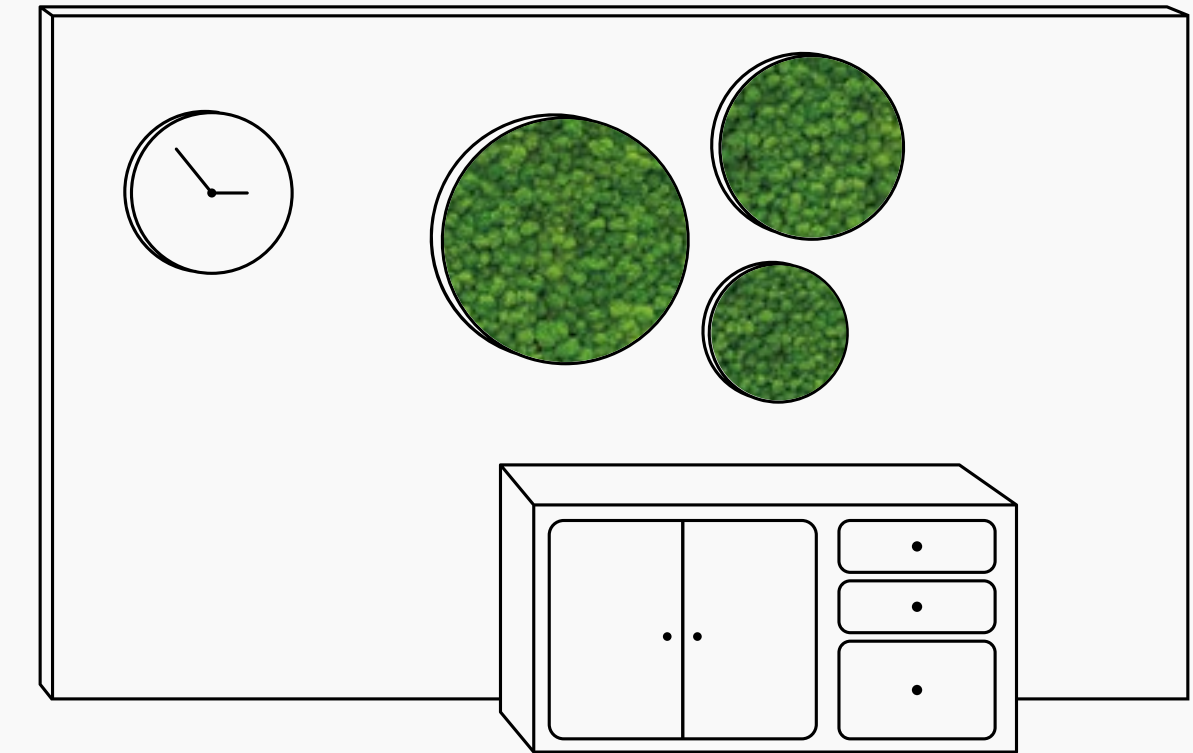

Moss frame

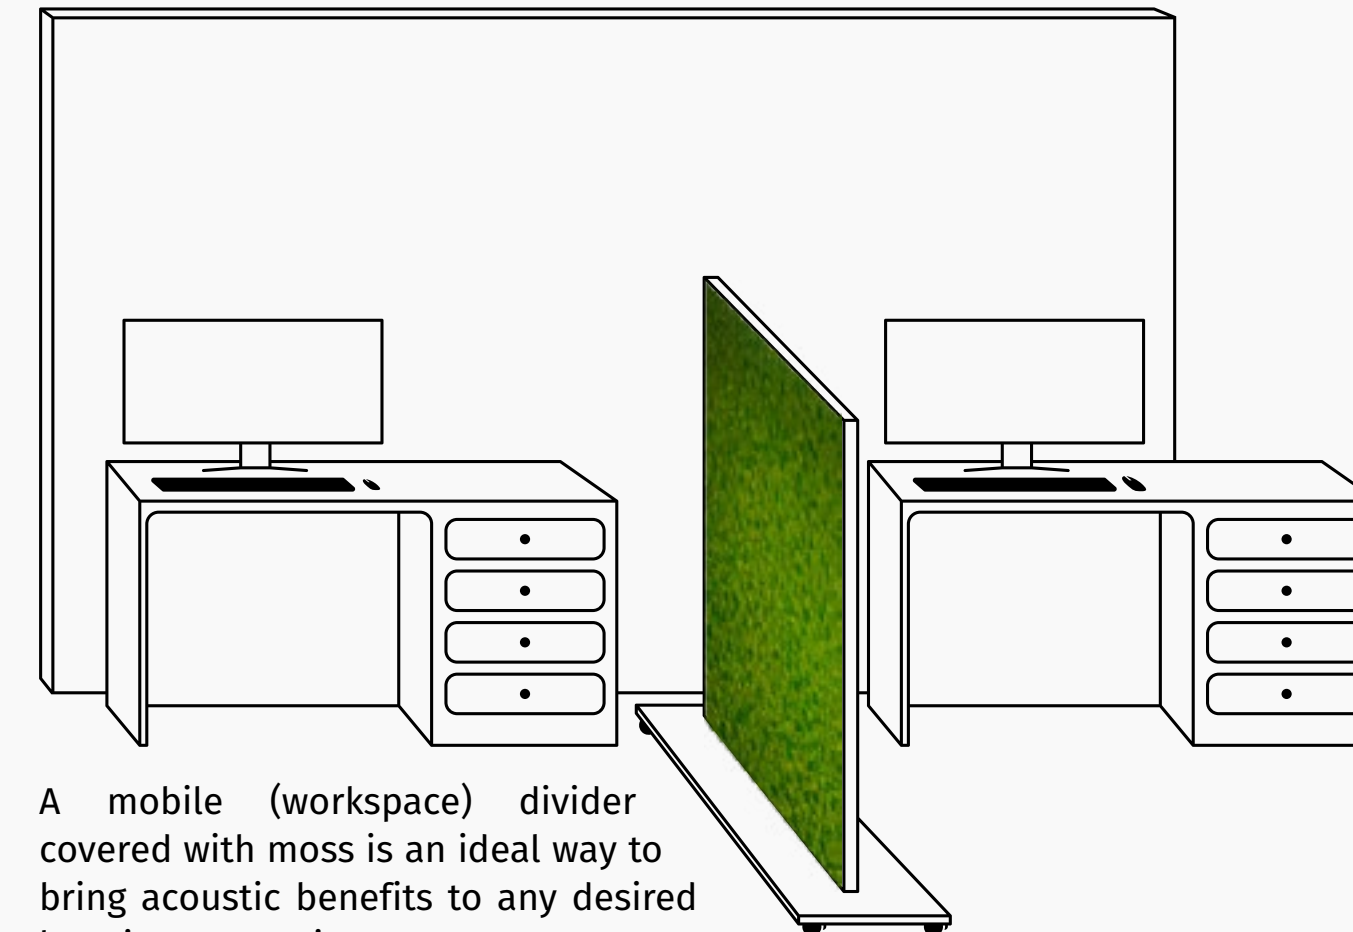

We can provide a moss artwork in many shapes. Additionally, we can cover it with the moss type of your choice. This ensures there's always a combination that matches your interior.

Moss circles

Moss circles are available in four standard sizes with diameters of 37-50-60-70 cm. It is also possible to deviate from these pre-selected sizes; inquire about the options.

Moss divider

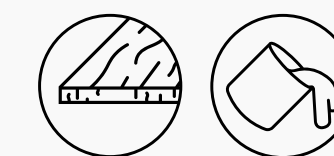

A mobile (workspace) divider covered with moss is an ideal way to bring acoustic benefits to any desired location at any time.

Freeform moss

Gives a natural look to your logo, quote, slogan, or brand. Would you prefer a world map, a country silhouette, or another freeform moss shape on your wall? There's endless possibilities!

Moss wall

A full wall covered with moss adds ambiance to the space where it is placed. Additionally, it has acoustic value. Just like with our other products, you can choose from the various types of moss we offer. It is also possible to incorporate a logo, brand, quote, or slogan. Need a moss wall around a television, smoke detector, control unit, or other obstacle? No problem, we'll take care of it for you.

The moss wall is fully prepared at our location, allowing for installation to typically be completed within one working day.

- ✓ Low maintenance
- ✓ Insulating properties
- ✓ Sustainable appearance
- ✓ No natural light required
